

**OUR STURDY AND RELIABLE LENS MOUNT WITH A RETAINER RING TO
PROVIDE THE MOST SECURE PLACEMENT.**

**LENS MOUNT WITH
RETAINER RING**

REVIUN LENS MOUNT WITH RETAINER RING

Introducing our impressive lineup of 12.8mm lens mounts designed to provide exceptional convenience and stability for your optical setups. These Fixed Optic Mounts boast a range of advanced features to streamline your mounting process. With internally threaded mounts for $\varnothing 0.5''/12.8\text{mm}$ optics, you can effortlessly secure your optics with the included retaining ring. For combining optics and threaded components, our mounts offer both internal and external threaded options, ensuring compatibility and versatility. Choose from our internally threaded mounts with or without a retaining lip, catering to your specific needs. To ensure secure placement, we offer retaining rings specifically designed to keep your optics firmly in place without damaging the fragile and smooth optical elements. Manufactured with precision from durable aluminum and finished with a sleek black anodized coating. Our Fixed Optic Mounts are the go-to choice for standard mounts, offering exceptional quality and performance for your optical applications.
