**STRAIGHT SLOT
MOUNTING BASE**

REVIUN STRAIGHT SLOT MOUNTING BASE

Introducing our Straight Slotted Post Mounting Base, designed to enhance the versatility of your existing mounting equipment. This mounting base is the ideal solution for direct mounting to standard breadboards, providing a seamless integration into your setup. Featuring counterbored $\frac{1}{4}$ -20 or M6 x 1.0 holes/slots, it ensures a secure and reliable connection. Crafted from sturdy aluminum and finished with a sleek black anodized coating, this mounting base offers both durability and aesthetics. Compatible with both imperial and metric breadboards, posts, and post holders, it offers maximum compatibility and ease of use. Additionally, it provides a larger contact area, enhancing stability and minimizing vibrations. Elevate your mounting capabilities with our Straight Slot Mounting Base, the perfect addition to your optical setup.
